

Capability Statement

COMPANY OVERVIEW

Founded in 2019, by Antoin L. Green, to provide Network Security to the Government as well as the Private sector, to keep our Country and Personnel safe from our adversaries that want to do harm through network infrastructure and social media, to make sure your personal information is not compromised.

CORE SERVICES

- Managing/Maintaining all installed system and Infrastructure
- Install/Configuring, Testing and Maintaining operating system
- Maintaining and Administering computer networks and related computer environments including system software, Application software, hardware and configuration
- Protecting data, software and hardware by coordinating, planning and implementing network security measures
- Build troubleshoot computer network
- Setup repair and troubleshooting both hardware and software

What make my company stand out is that, I'm a retired army Veteran with over 21 years of military service, I would be dedicated to serving the government again, plus giving the private sector the opportunity to see what kind of dedication and drive I have to get the job done, in the most precise manner possible.
